High Quality Means More Than Low Price

Have you stopped to realize that merchandise of high quality are more lasting, and cheaper to buy than those of low grade, which means a great saving of money in the end.

Merchandise of cheap quality have advanced more than those of the high-grade, and they have but a small part of the wearing qualities of the better grades.

It is our earnest endeavor to maintain quality and at the same time keep the price of quality as low as possible. Every day now brings us up against new problems. We are now selling quantities of merchandise at less than we would have to pay for same to-day.

Ladies' House Dresses

Do you realize that it is a good time to buy your House Dresses? Our line is now complete and at prices that are but a little advanced over the old prices. These are Dresses we bought early for fall stock. The factory wanted to ship them in early to make room.

These are the Good Service make of House Dresses, which is surely a guarantee as to the quality, and the price you will find is very low.

When you stop to figure the price of Percales and Gingham to-day, you can very readily see what it costs to make these Dresses in the best qualities of materials.

In this line of Dresses are the light Stripes and Checked Gingham, in the best qualities, at but a little more than you will pay for the material alone.

The make is the very best, and at the prices we are asking it means a good saving to you to purchase now. See this line of Dresses.

Paper Towels for Picnics

Some time ago, before the prices on all paper stock advanced, we bought a case of 17x35-in. Paper Towels. These Towels save washing, as they are to be thrown away as soon as used. The price is so very low that all users of automobiles should have a dozen or so of these Towels in the machine all the time. They will come in very handy. You will want more. We cannot get more at this price, 12 Paper Towels for 5c.

Towels in Bargain Basement

One lot 18x31-in. Turkish Towels at 20c each.

One lot 21x44-in. Heavy Turkish Towels at 39c each.

Toilet Papers in Basement at 5c each, 2 for 25c and 3 for 25c. These are better than the price represents.

We have just received a good line of new Slip-On Waists in Voile, also the Voile Slip-On Middy. These are the new popular wash waist that are in good demand at the present time.

These Voile Waists are made from a very fine quality Voile, made in a very neat tailored style. You will surely want at least one of these new, popular Waists.

The fine Voile Slip-On Middy is entirely new and is going to be very popular this season. These came made of a plain White Voile finished at neck, cuffs and around bottom with plain colors, such as Tan, Blue, Green, Pink and Rose.

See our new White Voile Smocks, finished at collar, cuffs and belt with the plain colors, such as Green, Blue and Rose.

You will need one of those \$2.00 Wash Jap Silk Waists, all colors, Black and White.

White Wash Skirts

Wash Skirts are now in good demand. This bids fair to be the greatest White Wash Skirt season that we have ever seen. The price of woollens makes the demand for cottons greater than ever before.

Then you will find that the price of the cotton skirt has advanced but a very little from the past season, and the qualities of materials are fully as good as in past seasons.

White Piques and Bedford Cords are very good this season. These are cloths that wear well and always do up to look like new.

We have some especially good values in these Skirts at \$2.00, \$2.50, \$3.00 and \$3.75. These are a fine quality material, made up in the season's best Wash Skirt styles. All cloths are shrunk before they are made.

In the better grades, such as the Printzess and Wooltex Pre-Shrunk Skirts, we can give you some exceptional styles and values.

MORE ON SHIRT FACTORY.

Alexander Ironside Reports on What He Has Received Information.

To the public of Barre: Mr. E. D. Luckenbill, manager for Tauber-Rytenberg Co., seems to think that I have been misinformed about conditions existing in the local shirt factory. What I previously stated in the plain, unvarnished truth and nothing but the truth and the information stated came directly from the operatives themselves in mass meeting assembled. If the girls misinformed me (and I do not believe they did) the fault lies with them and not any outside informant.

Mr. Luckenbill says immediately he came to Barre and found prices were low he advanced wages all round, this when the girls had declared a strike and told him they were not going back till prices were altered. The increase over all work amounted to an all-round increase of one-half a cent, whether it was by the dozen, the two dozen or the hundred different parts that go to compose a government army shirt or the present work they are now doing, which is known in the trade as "flannels."

To give one idea of what hard work and little pay looks like I quote some of the figures the operatives received up till two weeks ago and I have not heard of an increase since. Collar setting, 4c per dozen; sewing down collars, 3c per dozen; on government military shirt, 7 1/2 c. per dozen (the collar here is all in one piece); pockets, 5c per dozen; pockets with lids, 10c per dozen; government military shirt the same; centers on shirts, 2c or 3c per dozen; government military shirt the same; button piece and sewing down center plates, 5c to 10c per dozen; sewing on pockets, 12c per dozen, with lids 14c per dozen; collar making (two operations), 4 1/2 c. and 3c per dozen, or for the making of a collar proper one operator will get 4 1/2 c. for her part and the other gets 3c for her part; cuff making, 3c per 24 cuffs; cuff setting, 10 1/2 c. per 24 cuffs; sleeve facings, 7c per 24 facings; piecing sleeves, 2c per 24 sleeves; hemming sleeves 1 1/2 c. per 24 sleeves; sleeve, 4c per 24 sleeves; seam and felling, 4c per 24 sleeves; joining, 2c per 24 sleeves; yoking, 2c per dozen; hemming shirt front and back, 3c per 24, or one dozen shirts; button holes, 4 1/2 c. per 132 button holes; sewing on buttons, 4c per 132 button holes; floor work, marking button holes, 1c per dozen; inspecting, folding, buttoning and trimming, 4c per dozen, and there you are.

As to the managers since the firm started in Barre, the following persons have held office in one way or another: Mr. Bernard, Mr. Beerbohm and Mr. Luckenbill. Mr. Beerbohm was here for five or six weeks, probably temporarily, but here nevertheless.

Mr. Luckenbill says the operatives were inexperienced, and no one doubts that statement. We must all learn, but his firm must also learn that if they are to do business they must not expect women wage earners to live on fresh air until such time as they are taught to learn the trade, especially when the machinery the girls have to work with is old and antiquated and nearly useless in what one would term the factory life of to-day.

Coming to the part where Mr. Luckenbill says the operatives are turning out more in three months than was done in the previous five months, let me make this clear to everybody. The first five months the work was wholly government work; it had to be first-class, all thoroughly inspected before it would get by; and in that lies a great difference between working for Uncle Sam and what is known as the "jobber." When I went through this factory in the early spring the manager told me there were no books to show, in fact, said they did not have them, which seemed queer to me. I am pleased to hear that Manager Luckenbill now has books for the inspection of those who have been misinformed, whoever they may be.

Finally, why did Mr. Luckenbill stop the power in the factory one day lately and tell the operatives that the first one to his knowledge who told another operator her wages would be instantly dismissed? And this in a factory where there is supposed to be an iron-clad scale for every grade of work performed. This firm may be good to their managers but that does not help the poor working girls toiling in this factory and I believe the girls and will do all I can to help them get better conditions.
